

2013 PRICE LIST

I am a printer and photographer originally from London, England, now based in Minneapolis, Minnesota.

I have 35 years experience in printing exhibition and portfolio prints for photographers in the traditional gelatin-silver process, and for the past 17 years I have specialised in the historic photographic processes of platinum, photogravure and three-colour gum dichromate.

Services include hand-processed film, fibre-base silver prints, digital negatives (including both inkjet and imagesetter output), digital prints, technical advice, workshops and teaching.

PLATINUM - PALLADIUM PRINTING

Prices

Digital Internegative	\$0.60 per square inch (image area).
Platinum-Palladium Printing	\$2.50 per square inch (image area).

There is a minimum size of 8" x 10" for both internegative and print. Additional prints from the same negative *ordered at the same time* -25%.

Papers

Papers include Weston Diploma, Rives BFK, Arches Platine and Magnani Revere. Others by request.

Prints can be made with clean white borders or with the hand-coated sensitiser brush strokes showing.

Files

Files should preferably be unsharpened PSD or TIF files and 360dpi at the final size.

Images submitted as digital files will include basic clean up and preparation for output, but additional image manipulation and editing will be billed at \$100 per hour.

Files can be sent by CD, DVD, flash drive etc. via the mail, or by file transfer using my WeTransfer account — keithtaylor.wetransfer.com

Scans

Those images submitted as original film will incur a scanning cost of \$60. Clean up is included but additional image manipulation and editing will be billed at \$100 per hour. In these cases supplying a match-print to work with is advisable.
